

ENROLMENT PROVISIONS FOR THE UNIVERSITY OF AMSTERDAM 2019-2020

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

These provisions comprise the procedural rules concerning enrolment at the University of Amsterdam in accordance with Chapter 7, Titles 2 and 3 of the Dutch Higher Education and Research Act (WHW), as well as the tuition fee rates, for the 2019-2020 academic year.

These provisions were adopted by decision of the Executive Board, Decision no. 2018-070395 d.d. 23 Oktober 2018

Contents

The Enrolment Provisions consist of 4 parts:

- I Procedural rules;
- II Provisions on tuition fee rates 2019-2020;
- III Explanatory Notes to UvA Enrolment Provisions 2019-2020;
- IV Appendices, including the following UvA regulations: Regulations governing Recommendations on Choice of Degree Programme (Regeling Studiekeuzeadvies), the Regulations governing Selection and Placement for Fixed Quota Degree Programmes (Regeling selectie en plaatsing fixusopleidingen), and the Regulations governing the Flexible Study pilot (Regeling experimentflexstuderen) for 2019-2020.

I Procedural rules

Article 1.1 TERMS AND CONDITIONS OF ENROLMENT

Enrolment as a student or external student (extraneus) is only open to those who satisfy the statutory educational entry requirements and admission requirements set out in Chapter 7, Titles 2 and 3 of the WHW or to those to whom exemption from these educational entry requirements is granted by or on behalf of the Executive Board, on the basis of the relevant statutory options.

Article 1.2 FURTHER TERMS AND CONDITIONS OF ENROLMENT

1. For their first enrolment in a Bachelor's programme, students must meet the following conditions:
 - 1) Submission of the application for the relevant degree programme via Studielink.
 - 2) If the student enrolling has the nationality of a country that belongs to the European Economic Area (EEA) and is enrolling for the first time at the University of Amsterdam (UvA) (if no verification of identity has been obtained via Studielink), submission of a copy of his or her valid passport/identity card.
 - 3) If the student enrolling does not have the nationality of a country belonging to the EEA and the student is enrolling at the UvA for the first time (if no verification of lawful residence has been obtained via Studielink), submission of:
 - a copy of the valid passport of the student enrolling and
 - proof that on the first day of the degree programme for which he/she is enrolling, he/she has lawful residence in the Netherlands. As proof of lawful residence in the Netherlands, the head of the Central Student Administration (CSA) must receive the following documents from the student enrolling (if no verification of lawful residence has been obtained via Studielink):
 - a copy of the extract from the Persons Database (BRP), or
 - a copy of both sides of a valid residence permit, or

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

- a permit establishing residence issued to the student who is enrolling, or
 - a copy of the proof of payment or confirmation of receipt of the residence permit application of the student enrolling, or
 - a copy of the valid passport of the student enrolling, with the MVV (Authorisation for Temporary Residence) sticker, or
 - proof of an application to extend a residence permit or confirmation of receipt from the IND (Dutch Immigration and Naturalisation Service) or the request to transfer the fees for this.
- 4) Submission of a once-only authorisation for the University to collect the tuition fees payable either in a lump sum or in instalments, a direct payment of the tuition fees via iDEAL, credit card or direct transfer, an original declaration of paid tuition fees from an institution of higher education if statutory tuition fees are owed or, in exceptional cases, proof that the tuition fees owed have been paid by means of another method to be determined by the head of the CSA.
 - 5) If no verification of previous education has been obtained for the chosen degree programme via Studielink, and in the case of the old pre-university (VWO) education, the student has not satisfied the criteria contained in Appendix 4, proof of sufficient previous education to be issued by the director of Student Services.
 - 6) If no verification of previous education has been obtained for the chosen degree programme via Studielink and if the student enrolling had a previous education outside the Netherlands, an exemption from these educational entry requirements is granted by the Head of the CSA.
 - 7) If no verification of previous education has been obtained via Studielink and the student enrolling has completed the first year in higher professional education (HBO) as previous education and has not satisfied the criteria contained in Appendix 4, proof of sufficient previous education to be issued by the Dean of the faculty for that programme.
 - 8) For the first enrolment for a Bachelor's programme that is subject to the UvA Regulations governing Recommendations on Choice of Degree Programme:
 - a. a recommendation on the choice of degree programme that confers entitlement to admission to the degree programme; or
 - b. if no recommendation on the choice of degree programme has been issued because the prospective student did not participate in the UvA Matching, proof of valid reasons preventing him/her from participating in the UvA Matching, issued by the UvA Matching Case Committee; or
 - c. confirmation by the Head of the CSA that the student in question is entitled to admission based on the UvA Regulations governing Recommendations on Choice of Degree Programme on other grounds than those stated under a. and b.
 - 9) For the first enrolment in a fixed quota degree programme pursuant to Sections 7.53b to 7.56e of the WHW, a confirmation of admission issued via Studielink that has been redeemed in time by the prospective student.

For the academic year 2019-2020, a fixed quota applies to the degree programmes Medicine, Dentistry, Biomedical Sciences, Artificial Intelligence, Psychobiology, Psychology and Business Administration.
 - 10) For the first enrolment in a degree programme which has been awarded the 'small-scale, intensive education' distinction within the meaning of Section 6.7 of the WHW, confirmation, issued by the selection committee for the programme, that the student enrolling has been selected for the degree programme in question.
 - 11) For enrolment in a pre-Master's programme, confirmation, issued by the Dean of the faculty to which the programme belongs, that the student enrolling is being admitted to the pre-Master's programme in question.
2. For the purposes of their first enrolment in a Master's programme, students must meet the following conditions:
 - 1) The provisions stipulated in Article 1.2, paragraphs 1 to 4 of these Provisions.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

- 2) Enrolment in a Master's programme is only possible for those who have received confirmation of admission to the Master's programme by the Dean before the first day of enrolment.

Article 1.3 FURTHER TERMS AND CONDITIONS OF RE-ENROLMENT

- 1) For the purposes of re-enrolment in a degree programme, students must meet the following conditions:
- 2) Submission of the re-enrolment application via Studielink.
- 3) Submission of a once-only authorisation for the University to collect the tuition fees payable either in a lump sum or in instalments, a direct payment of the tuition fees via iDEAL, credit card or direct transfer, an original declaration of paid tuition fees from an institution of higher education if statutory tuition fees are owed or, in exceptional cases, proof that the tuition fees owed have been paid by means of another method to be determined by the Head of the CSA.

Article 1.4 DENIAL OF ENROLMENT

1. Those who receive a negative binding recommendation regarding the continuation of studies (BSA) may not enrol in the relevant degree programme or in the degree programmes with which this programme has a propaedeutic phase in common during the period as specified in the Teaching and Examination Regulations for the relevant programme.
2. Those whose enrolment at the UvA was previously terminated or was terminated early under the provisions of Section 7.12b, subsection 2 of the WHW will be denied enrolment.
3. Those whose enrolment at the UvA or another institution of higher education was previously denied or was terminated prematurely under the provisions of Section 7.42a of the WHW may be denied enrolment if the enrolment concerns the same or a related degree programme.
4. Those whose enrolment at the University of Amsterdam was previously terminated or was terminated early under the provisions of Section 7.57h, subsection 1 or 2 of the WHW may be denied enrolment.
5. Enrolment may be denied in cases in which there are outstanding claims at the UvA relating to the payment of tuition fees, examination fees or pre-Master's programme fees against the person wishing to enrol.

Article 1.5 LIMITATION ON USE OF EDUCATIONAL FACILITIES

Those persons enrolled as students in a degree programme may only participate in education of degree programmes subject to an enrolment quota (numerus fixus) or the distinctive feature 'small-scale and intensive education' after permission has been obtained from the relevant programme, in order to allow for the available teaching capacity. It is not possible to participate in practical training sessions on the basis of enrolment as an external student (extraneus).

Article 1.6 COMMENCEMENT AND END DATES OF ENROLMENT

Enrolment commencement date

1. Enrolment cannot take place until all the enrolment requirements have been met. Enrolment is only possible with effect from 1 September or, if indicated by the degree programme, from 1 February. For the Master's programme in Medicine, enrolment is also possible in other months (because of the staggered intake in the medical internships). For 'guest students' (bijkvakstudenten), enrolment is also possible in other months. Enrolment with retroactive effect is not possible unless enrolment has been demonstrably delayed as a result of circumstances attributable to the UvA or if confirmation of

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

- admission for a fixed quota degree programme has been issued at such a time that it can still be redeemed after 1 September.
2. Enrolment will take effect on 1 September if:
 - the enrolling student has, before 1 September of the academic year for which he/she wished to enrol, submitted an application via Studielink for the programme in question and;
 - the terms and conditions of enrolment stipulated in Article 1.2 have been met before 1 September.
 3. Enrolment will take effect on 1 February if:
 - the enrolling student has, before 1 February of the academic year for which he/she wished to enrol, submitted an application via Studielink for the programme in question;
 - the terms and conditions of enrolment stipulated in Article 1.2 have been met before 1 February.

Enrolment end date

4. The enrolment will end on 31 August 2019, unless it is terminated prematurely in accordance with Article 1.9.

Article 1.7 PROOF OF ENROLMENT

Once all the enrolment requirements as set out in Article 1.2 and 1.3 of these Provisions have been satisfied, a proof of enrolment will be issued.

Article 1.8 UNIVERSITY ID CARD

At the time of the first enrolment, a university ID card (student ID card or collegekaart) will be issued. In cases of loss or theft of the university ID card where no police report can be submitted, a duplicate can be obtained for a fee of €15.00.

Article 1.9 TERMINATION OF ENROLMENT

1. A person who has submitted a request for enrolment and paid the tuition or examination fees or pre-Master's programme fees and wishes to cancel this enrolment prior to the start of the new academic year, must report this via Studielink by no later than 1 September of the new academic year.
2. Upon receipt of the request for disenrolment submitted via Studielink by the person enrolled as a student, the enrolment will be cancelled for the current academic year on the basis of the provisions of Section 7.42, subsection 1 of the WHW, commencing in the following month. Retroactive termination of enrolment is not possible.
3. The enrolment of a student can be terminated on the basis of the provisions of Sections 7.8b, subsection 5, 7.12b, subsection 2, 7.42, subsection 2, 7.42a and 7.57h, subsection 1 or 2, of the WHW.

Article 1.10 PAYMENT OF TUITION FEES AND EXAMINATION FEES

1. Tuition fees, examination fees of pre-Master's programme fees must be paid in one lump sum, or in staggered payments of ten instalments if enrolment commences on 1 September in the case of tuition or examination fees, or five instalments in the case of pre-Master's programme fees or enrolment on 1 February. Students choosing to stagger their payments will be charged an additional once-only €24.00 administration fee.
2. Staggered payments of the tuition fees, examination fees or pre-Master's programme fees are possible for all the types of enrolment mentioned in these Provisions, subject to the conditions that apply.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

3. In the event of staggered payments, each instalment will be allocated to the oldest outstanding claim for tuition fees, examination fees or pre-Master's programme fees for the relevant academic year against the person on whose behalf the payment has been made.
4. If it is not possible to collect the tuition fees, examination fees or pre-Master's programme fees owed (in one lump sum or in instalments), the institution will issue the student with an ultimatum of three collection attempts, within which the amounts owed must be paid. If the amounts owed are not paid within this period, the enrolment will be cancelled or terminated with due observance of the provisions of Section 7.42, subsection 2 of the WHW. In cases of authorisation for collection of payment of the tuition fees, examination fees or pre-Master's programme fees owed in September in a single instalment for the whole year where direct debit turns out not to be possible, the enrolment will be cancelled with effect from 1 September of the relevant academic year, as enrolment will not have taken place.
5. If the enrolment takes place with effect from a date later than 1 September, the tuition fees, examination fees or pre-Master's programme fees owed will be calculated pro rata in accordance with the number of months remaining in the relevant academic year.

Article 1.11 REPAYMENT OF TUITION FEES AND EXAMINATION FEES

1. The repayment of tuition fees in accordance with these Provisions will be executed after the termination of enrolment as set out in Section 7.42, subsection 1 of the WHW, on the understanding that for every month remaining in that academic year, one-twelfth of the tuition fees owed will be refunded, with due observance of the provisions of subsection 2. The tuition fees will only be refunded if enrolment in all programmes is terminated.
2. If the enrolment is terminated with effect from July or August, there will be no entitlement to repayment of the tuition fees.
3. The request for repayment of tuition fees will only be granted after the submission, where applicable, of the original proof of tuition fees paid or proof of disenrolment from another institution of higher education.
4. In the case of enrolment in a pre-Master's programme or as an external student, there will be no entitlement to repayment of the fees or examination fees.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Article 1.12 ADMINISTRATION FEE

Those who would like to obtain a certificate pursuant to Section 7.11 of the WHW but who are unable to submit a relevant proof of enrolment will not obtain the certificate until they have paid a sum equal to the tuition fees owed for the period(s) in which the proof of enrolment is missing but in which the associated examinations were passed (in which case the official entry dates count as starting dates), plus an administration fee amounting to €200.00.

Article 1.13 HARDSHIP CLAUSE

The Executive Board may depart from these Provisions in the event that a stipulation in these Provisions would lead to a special case of unfairness of a dominant nature.

Article 1.14 IMPLEMENTATION OF ENROLMENT PROVISIONS

The head of the CSA is charged with the implementation of the Enrolment Provisions.

Article 1.15 ENTRY INTO FORCE, OFFICIAL TITLE

1. These Provisions enter into force as of 1 October 2018 and apply to enrolments for the academic year 2018-2020.
2. These Provisions may be referred to as the ‘Inschrijvingsbesluit (Enrolment Provisions) UvA 2019-2020’.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

II Provisions on tuition fee rates 2019-2020

Article 2.1 TUITION FEES FOR FULL-TIME STUDENTS

1. The full statutory tuition fees for those enrolled as students in a full-time degree programme who satisfy the conditions pursuant to Section 7.45a, subsection 1, 2, 3 or 6 of the WHW, amount to €2,083.00, with due observance of the stipulations below.
2. The reduced statutory tuition fees for those enrolled as students in a full-time degree programme who satisfy the conditions pursuant to Section 7.45a, subsection 5 of the WHW, amount to €1,041.00, with due observance of the stipulations below.
3. The institutional tuition fee rate for those enrolled as students in a full-time degree programme who do not satisfy the conditions set out in Section 7.45a, subsection 1, 2, 3, 5 or 6 of the WHW, is equal to the institutional tuition fee rate (referred to in Appendix 1), unless the Executive Board has determined otherwise for certain degree programmes or (groups of) students (Appendices 2 and 3).
4. The full statutory tuition fees for those enrolled as students in the joint degree Bachelor's programme in the Liberal Arts and Sciences at Amsterdam University College (AUC) who satisfy the conditions pursuant to Section 7.45a, subsection 1, 2, 3 or 6 of the WHW, amount to €4,387.00, with due observance of the stipulations below.
5. The reduced statutory tuition fees for those enrolled as students in the joint degree Bachelor's programme in the Liberal Arts and Sciences at Amsterdam University College (AUC) who satisfy the conditions pursuant to Section 7.45a, subsection 5 of the WHW, amount to €2,139.00, with due observance of the stipulations below.
6. The full statutory tuition fees for those enrolled as students in the Bachelor's degree programme in Politics, Psychology, Law and Economics (PPLE), who satisfy the conditions pursuant to Section 7.45a, subsection 1, 2, 3 or 6 of the WHW, amount to €4,166.00, with due observance of the stipulations below.
7. The reduced statutory tuition fees for those enrolled as students in the Bachelor's degree programme in Politics, Psychology, Law and Economics (PPLE), who satisfy the conditions pursuant to Section 7.45a, subsection 5 of the WHW, amount to €2,083.00, with due observance of the stipulations below.
8. The rates that apply to students from an EEA country also apply to students from a country outside the EEA enrolled via the Foundation for Refugee Students (UAF).
9. The tuition fee rate to be paid will be set on the basis of the information known to the institution at the time of enrolment (through Studielink). If the tuition fee rate is later found to have been set on the basis of incorrect or incomplete information, the institution reserves the right to charge the correct rate.

Article 2.2 TUITION FEES FOR PART-TIME STUDENTS

1. The partial statutory tuition fees for those enrolled as students in a part-time degree programme who, at the start of the academic year, satisfy the conditions pursuant to Section 7.45a, subsection 1, 2, 3 or 6 of the WHW, amount to €1,775.00, with due observance of the stipulations below.
2. The reduced statutory tuition fees for those enrolled as students in a part-time degree programme who, at the start of the academic year, satisfy the conditions pursuant to Section 7.45a, subsection 5 of the WHW, amount to €887.00, with due observance of the stipulations below.
3. The institutional tuition fee rate for those enrolled as students in a part-time degree programme who do not satisfy the conditions set out in Section 7.45a, subsection 1, 2, 3, 5 or 6 of the WHW, is equal to the institutional tuition fee rate (referred to in Appendix 1), unless the Executive Board has determined otherwise for certain degree programmes or (groups of) students (Appendix 2).

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

4. The tuition fee rate to be paid will be set on the basis of the information known to the institution at the time of enrolment (through Studielink). If the tuition fee rate is later found to have been set on the basis of incorrect or incomplete information, the institution reserves the right to charge the correct rate.

Article 2.3 TUITION FEES FOR STUDENTS IN WORK-STUDY DEGREE PROGRAMMES (DUALE OPLEIDING)

1. The statutory tuition fees for those enrolled as students in a work-study degree programme who satisfy the conditions pursuant to Section 7.45a, subsection 1, 2, 3 or 6 of the WHW at the start of the academic year, amount to €2,083.00, with due observance of the stipulations below.
2. The reduced statutory tuition fees for those enrolled as students in a work-study degree programme who satisfy the conditions pursuant to Section 7.45a, subsection 5 of the WHW at the start of the academic year, amount to €1,041.00, with due observance of the stipulations below.
3. The institutional tuition fee rate for those enrolled as students in a work-degree programme who do not satisfy the conditions set out in Section 7.45a, subsection 1, 2, 3, 5 or 6 of the WHW, is equal to the institutional tuition fee rate (referred to in Appendix 1), unless the Executive Board has determined otherwise for certain degree programmes or (groups of) students (Appendix 2).
4. The tuition fee rate to be paid will be set on the basis of the information known to the institution at the time of enrolment (through Studielink). If the tuition fee rate is later found to have been set on the basis of incorrect or incomplete information, the institution reserves the right to charge the correct rate.

Article 2.4 TUITION FEES FOR ENROLMENT IN A PRE-MASTER'S PROGRAMME (SCHAKELPROGRAMMA)

1. For those who are already in possession of a Bachelor's degree and who are enrolled in a Bachelor's programme at the UvA for the first time in 2019-2020, in order to take a pre-Master's programme (schakelprogramma), i.e. a deficiency programme, by way of preparation for admission to a Master's programme at the UvA, institutional tuition fees apply equal to €34.71 for each ECTS credit, to a maximum of €2083.00.
2. For those enrolled in a pre-Master's programme and also taking a programme to which statutory tuition fees apply, an exemption from paying the fee for the pre-Master's programme applies upon production of proof of payment of the statutory tuition fees.
3. For those enrolled in a pre-Master's programme who take tests or examinations for units of study or degree programmes that are not part of the pre-Master's programme, the institutional tuition fee rate will be payable pursuant to Article 2.1 paragraph 2.

Article 2.5 EXAMINATION FEES FOR EXTERNAL STUDENTS

Those wishing to be enrolled as external students (extraneus) in a degree programme must pay examination fees for each programme at the level of the full statutory tuition fees owed for a full-time enrolment.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Article 2.6 INSTITUTIONAL TUITION FEE AMOUNTS FOR ENROLMENT IN MORE THAN ONE PROGRAMME

1. Those who have been enrolled as a student at another institution of higher education in the Netherlands and who have paid the institutional tuition fee rate at that institution must pay the full institutional tuition fee rate upon their enrolment at the UvA if they are not entitled to the statutory tuition fee rate at the UvA, subject to the provisions set out below.
2. Those who have been enrolled as a student at an institution or in a degree programme such as listed in Appendix 3 to these Provisions and who have paid the institutional tuition fee rate at that institution will, upon their enrolment as a student at the UvA and provided that they furnish proof of payment of the tuition fees, be exempt from the payment of the tuition fees at the UvA. A student who has paid the institutional tuition fee rate at the UvA and who is enrolled in a second or subsequent degree programme at the UvA for which the institutional tuition fee rate is also payable will be exempt from the payment of tuition fees for the second or subsequent degree programme at the UvA.
3. Those who have been enrolled as a student at another institution of higher education in the Netherlands and who have paid the institutional tuition fee rate at that institution will be exempt from the payment of tuition fees upon enrolling as a 'guest student' (bijkvakstudent) at the UvA in the event that the tuition fees paid at their own institution are equal to or higher than the institutional tuition fees owed at the UvA. In the event that the tuition fees already paid at their own institution are lower than the institutional tuition fees owed to the UvA, only the difference will be owed.

Article 2.7 ARRANGEMENT FOR STUDENTS WHO ENROLLED IN A SECOND BACHELOR'S OR MASTER'S PROGRAMME AT THE UvA IMMEDIATELY AFTER THEIR FIRST

For students who enrolled in a second Bachelor's programme at the UvA immediately after completing their first Bachelor's programme at the UvA, or who enrolled in a second Master's programme at the UvA immediately after completing their first Master's programme at the UvA the institutional tuition fee rate is equal to the statutory tuition fee rate, if the following conditions are met:

1. the first Bachelor's or Master's degree was obtained at the UvA, and
2. the first Bachelor's or Master's degree at the UvA was obtained within the applicable nominal programme duration + 1 year (c+1), and
3. enrolment in the second Bachelor's or Master's programme at the UvA immediately followed/follows enrolment in the first Bachelor's or Master's programme at the UvA, and
4. the institutional tuition fee rate at the level of the statutory tuition fee rate applies for the nominal duration + 1 year (c+1) of the second Bachelor's or Master's programme at the UvA, provided that enrolment in the second Bachelor's or Master's programme was/is uninterrupted, and
5. the second Bachelor's or Master's programme is completed with a diploma within the nominal duration + 1 year (c+1) of the programme.

If these conditions are not met, the high institutional tuition fee rate will apply.

If it emerges at any time that the conditions have not been met, the high institutional tuition fee rate will be charged.

If a pre-Master's programme of up to 30 ECTS credits is taken at the UvA immediately after completion of the first Master's programme at the UvA and enrolment on a second Master's programme at the UvA takes place immediately after this and all other conditions in this article have been met, the second Master's programme at the UvA will also be deemed to follow immediately.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

**Article 2.8 TRANSITIONAL ARRANGEMENT FOR STUDENTS ENROLLED IN A
BACHELOR'S OR MASTER'S PROGRAMME AT THE UvA BEFORE OR ON 1
SEPTEMBER 2018**

Students who were enrolled in a Bachelor's or a Master's programme at the UvA before or on 1 September 2018, and who must pay tuition fees at the institutional rate, will, if the institutional tuition fee for this Bachelor's or Master's programme is higher than the institutional tuition fee for the degree programme in question was at the start of the programme, and if they have been enrolled without interruption for the nominal duration of the programme, be charged the institutional tuition fee at the institutional tuition fee rate that applied at the start of the Bachelor's or Master's programme in question.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

III Explanatory Notes to tuition fee provisions in UvA Enrolment Provisions 2019-2020

Statutory tuition fees

Full and reduced statutory tuition fees

Section 7.45 of the WHW states that the amount of the statutory tuition fee is set by an order in council. This is elaborated in Articles 2.2 and 2.4 to 2.4f of the WHW Implementation Decree 2008 and in Article 9 of the Regulations on the Financing of Higher Education (Regeling financiën hoger onderwijs). The ministerial Change to the Regulations on the Financing of Higher Education (Wijziging van de Regeling financiën hoger onderwijs) published on 18 September 2018 sets the full statutory tuition fee for the 2018-2019 academic year at €2,083.00. With effect from 18 September 2018 the WHW provides for reduced rate statutory tuition fees in addition to the full rate. This has created a basis for the Minister to reduce the statutory tuition fee for certain groups of students. The WHW Implementation Decree 2008 states that the reduced statutory tuition fee applies to students who from the academic year 2018-2019 started a degree programme in funded higher education and who since 1 September 1991 have not been previously enrolled in a higher-education degree programme within the meaning of the WHW and are enrolled in a Bachelor's degree programme. The reduced statutory tuition fee amounts to the half of the current full tuition fee for the programme in question (rounded down). Furthermore, this right may only be exercised once during a twelve-month period. Any time-out in the enrolment does not suspend this twelve-month period. Moreover, students who are taking a Bachelor's or Master's degree course in teaching may be eligible to pay the reduced (half) rate statutory tuition fees for an additional twelve-month period. This exception does not apply if, during the same period, the student is enrolled in a degree programme that is not in the field of teaching. Also during this second twelve-month period of reduced (halved) statutory tuition fee, any time-out in the enrolment does not suspend this twelve-month period. The start of eligibility for the second twelve-month period is dependent on the moment when the degree programme in teaching starts and is not in every case immediately consecutive to the first twelve-month period.

Higher statutory tuition fees for programmes awarded the distinctive feature of 'small-scale and intensive education'

In June 2012, the joint degree Bachelor's programme in the Liberal Arts and Sciences of Amsterdam University College was awarded the distinctive feature of 'small-scale and intensive education' status by the Accreditation Organisation of the Netherlands and Flanders (NVAO) (Section 6.7 WHW), as was the Bachelor's programme in Politics, Psychology, Law and Economics in August 2014. The high rate of tuition fees was set for these programmes in accordance with Section 6.7, subsections 1 and 5, of the WHW. The reduced statutory tuition fees amount to half of the higher statutory tuition fees set for these programmes. Separate institutional tuition fees were also set for these programmes.

Part-time rate

The partial statutory tuition fee of €1,755.00 set for the 2019-2020 academic year has been indexed in line with the indexing of the full statutory tuition fee and will therefore be €1,775.00 for 2019-2020. The reduced partial statutory tuition fee amounts to half of the partial statutory tuition fee.

Institutional tuition fee rates

If a student does not meet the conditions for the statutory tuition fee rate (cf. Section 7.45 a, subsection 1, 2, 3 and 5 of the WHW), the high institutional tuition fee rate will apply, unless a specific exception provision applies to the student. In accordance with Section 7.46 WHW, the board of the institution sets the institutional tuition fees. On 20 March 2018 the Executive Board decided on policy regarding the institutional tuition fees for the period 2019-2020 to 2023-2024. A number of basic principles were

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

formulated to be used when setting the rates. The first basic principle is that the institutional tuition fees must, in principle, cover the costs at the very least. As costs for a degree programme are not laid down per unit, the group explored alternatives that might be useful when calculating the institutional tuition fees. Opportunity costs are the economic costs, which estimate the (unrealised) yield of the best possible alternative. The rates for 2019-2020 were calculated on the basis of lost earnings or opportunity costs, whereby the rate is based on the shortfall in government funding in 2017, consisting of an education and research part for funded students, multiplied by the full statutory tuition fee in the academic year concerned. The shortfall in government funding per student was calculated using the amounts in the 'calculation of government funding and performance-related funding for Universities and Universities of Applied Sciences' from 2017. For practical reasons, a distinction was made between low, high and top rates. This method reflects the distinction made in the government funding itself (funding level). The nominal programme duration was taken into account when setting the tuition fee rates. This means that the diploma bonus has been allocated in proportion to the years. An extra contribution is charged to non-EEA students, because of the costs involved in the indirect support provided by the University. A transitional arrangement has been made for cases where the institutional tuition fee rises in relation to previous academic years. Students who have already started a programme will be charged the institutional tuition fee at the level of the institutional tuition fee that applied to the programme before the rise, plus indexation, for the nominal duration of the programme.

In certain cases, the Executive Board has set a different tuition fee, for example within the context of an Erasmus Mundus programme or for ('guest') students participating in nationwide collaborations. These exceptions are included in Appendix 2 and Appendix 3 to the Enrolment Provisions, among other places. The policy document has been published in full on the UvA website.

Tuition fees for a second degree programme

One of the conditions in the WHW for entitlement to the statutory tuition fees is not having previously obtained a Bachelor's or a Master's degree. However, an exception applies if the second degree programme is a first enrolment in a degree programme in the field of education or healthcare. Also, in accordance with Article 7.45a, paragraph 3 and the Implementation Decree of the Higher Education and Research Act (WHW) 2008, a student who is enrolled in a second Bachelor's programme during their first Bachelor's programme, or a second Master's programme during their first Master's programme, once the first degree has been passed, may complete the second programme at the statutory tuition fee rate, on condition that their enrolment is uninterrupted.

Pre-Master's students

In accordance with Section 7.57i of the higher Education and Research Act, those who are already in possession of a Bachelor's degree and who are enrolled in a Bachelor's programme at the UvA in order to take a pre-Master's programme (schakelprogramma) by way of preparation for admission to a Master's programme at the UvA, owe a fee, for a support of less than 60 ECTS credits of a maximum of a proportionate part of the full statutory tuition fee, and for a support of 60 ECTS credits or more, equal to a maximum of the full amount of the statutory tuition fee. For those enrolled in a pre-Master's programme and also taking a programme to which statutory tuition fees as meant in Section 7.45 paragraph 1 of the Higher Education and Research Act apply, an exemption from paying the fee for the pre-Master's programme applies upon production of proof that the statutory tuition fees have been or will be paid.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Arrangement for second degree programme at the UvA immediately following the first programme

A transitional arrangement subject to strict conditions applies to students who are/were enrolled in a second Bachelor's programme at the UvA immediately after completing their first Bachelor's programme at the UvA within the nominal programme duration + 1 year, or who are/were enrolled in a second Master's programme at the UvA immediately after completing their first Master's programme at the UvA within the nominal programme + 1 year. The third condition stipulates that enrolment in the second degree programme must immediately follow completion of the first degree programme. Of course, in determining the exact moment to be understood as 'immediately after', the student is dependent on the different entry dates for the second degree programme. It has also been agreed with the Central Student Council (CSR) that after completion of a first Master's programme at the UvA, a follow-on Master's programme at the UvA also includes enrolment in a second Master's programme at the UvA immediately after completion of the required pre-Master's programme at the UvA, providing that the other conditions have been met. For the purposes of clarity: this means that a pre-Master's programme (to a maximum of 30 ECTS credits within one academic year) is taken immediately after completion of a first Master's programme at the UvA within the programme duration + 1 year (in other words, Master's/pre-Master's/Master's and not Bachelor's/pre-Master's/ Master's), and that enrolment in a second Master's programme at the UvA takes place immediately following a pre-Master's programme at the UvA. The nominal duration of a part-time programme is the nominal duration of that same programme in full-time times two.

Entry into force and scope

The Enrolment Provisions enter into force as of 1 October 2018 and apply to requests for enrolment or disenrolment relating to the 2019-2020 academic year. The Enrolment Provisions do not apply to post-initial Master's programmes or contract teaching.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Appendix 1

Institutional tuition fee rates for the UvA pertaining to the 2019-2020 academic year

| Institutional tuition fee for second or subsequent degree programme* | |
|---|--|
| €8,000.00 | for the Bachelor's programmes of the Faculty of Humanities, the Faculty of Law, the Faculty of Economics and Business and the Faculty of Social and Behavioural Sciences |
| €10,900.00 | for the Bachelor's programmes of the Faculty of Science, and the Bachelor's programme in Medical Informatics of the Faculty of Medicine (AMC) |
| €19,800.00 | for the Bachelor's programme in Medicine |
| €19,800.00 | for the Bachelor's programme in Dentistry |
| €11,978.00 | for the Bachelor's programme in Liberal Arts and Sciences (AUC) |
| €11,450.00 | for the Bachelor's programme in Politics, Psychology, Law and Economics (PPLE) |
| €12,000.00 | for the one-year Teacher Training programme of the Faculty of Social and Behavioural Sciences (Master's, ILO) |
| €14,100.00 | for the one-year Master's programmes of the Faculty of Law |
| €20,100.00 | for the one-year Master's programmes of the Faculty of Science |
| €12,100.00 | for the one-year and two-year Master's programmes of the Faculty of Humanities, with the exception of the two-year Master's programme in Conservation and Restoration of Cultural Heritage |
| €14,850.00 | for the one-year and two-year Master's programmes of the Faculty of Social and Behavioural Sciences, with the exception of the one-year Teacher Training programmes (Masters, ILO) |
| €14,100.00 | for the one-year Master's programmes of the Faculty of Economics and Business |
| €10,000.00 | for the two-year Master's programmes of the Faculty of Economics and Business |
| €10,000.00 | for the two-year Master's programmes of the Faculty of Law |
| €14,000.00 | for the two-year Master's programmes of the Faculty of Science, the two-year Master's programmes in Medical Informatics of the Faculty of Medicine (AMC) |
| €14,000.00 | for the two-year Master's programme in Conservation and Restoration of Cultural Heritage of the Faculty of Humanities |
| €21,900.00 | for the three-year Master's programme in Medicine |
| €21,900.00 | for the three-year Master's programme in Dentistry |
| *This refers to a second or subsequent degree programme as stipulated in Section 7.45a, subsection 1 (a). The programmes do not include joint degrees. | |

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

| Institutional tuition fee for second or subsequent degree programmes*, joint degrees | |
|--|---|
| €11,200.00 | for the joint degree Bachelor's programmes in Chemistry and Physics and Astronomy of the Faculty of Science |
| €15,450.00 | for the Tinbergen Institute Master of Philosophy in Economics (Tinbergen Graduate School) and the joint research Master's programme in Business in Society of the Faculty of Economics and Business |
| €15,500.00 | for the joint degree Master's programme in Entrepreneurship of the Faculty of Economics and Business |
| €13,300.00 | for the joint degree Master's programmes in Chemistry, Physics and Astronomy, Computational Science, and Computer Science and Bioinformatics and Systems Biology of the Faculty of Science |
| *This refers to a second degree programme as stipulated in Section 7.45a, sub-section 1 (a) | |

| Institutional tuition fee for non-EEA students* | |
|--|---|
| €8,800.00 | for the Bachelor's programmes of the Faculty of Humanities and the Faculty of Law |
| €9,300.00 | for the Bachelor's programmes of the Faculty of Social and Behavioural Sciences |
| €9,280.00 | for the Bachelor's programmes of the Faculty of Economics and Business |
| €11,990.00 | for the Bachelor's programmes of the Faculty of Science and the Bachelor's programme in Medical Informatics of the Faculty of Medicine (AMC) |
| €21,780.00 | for the Bachelor's programme in Medicine |
| €21,780.00 | for the Bachelor's programme in Dentistry |
| €11,978.00 | for the Bachelor's programme in Liberal Arts and Sciences (AUC) |
| €12,600.00 | for the Bachelor's programme in Politics, Psychology, Law and Economics (PPLE) |
| €13,200.00 | for the one-year Teacher Training programmes of the Faculty of Social and Behavioural Sciences (Master's, ILO) |
| €15,510.00 | for the one-year Master's programmes of the Faculty of Law |
| €22,010.00 | for the one-year Master's programmes of the Faculty of Science |
| €13,310.00 | for the Master's programmes of the Faculty of Humanities, with the exception of the two-year Master's programme in Conservation and Restoration of Cultural Heritage |
| €16,335.00 | for the one-year and two-year Master's programmes of the Faculty of Social and Behavioural Sciences with the exception of the one-year Teacher Training programme (Master's, ILO) and the two-year Master's programme in Conservation and Restoration of Cultural Heritage of the Faculty of Humanities |
| €14,950.00 | for the one and two-year Master's programmes of the Faculty of Economics and Business offered by the Amsterdam School of Economics |
| €16,850.00 | for the one and two-year Master's programmes of the Faculty of Economics and Business offered by the Amsterdam Business School |
| €11,000.00 | for the two-year Master's programmes of the Faculty of Law |
| €15,400.00 | for the two-year Master's programmes of the Faculty of Science, the two-year Master's programmes in Medical Informatics of the Faculty of Medicine (AMC) |

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

| | |
|---|--|
| €24,090.00 | for the three-year Master's programme in Medicine |
| €24,090.00 | for the three-year Master's programme in Dentistry |
| *This refers to non-EEA students as stipulated in Section 7.45a, sub-section 1 (b) WHW. The programmes do not include joint degrees. | |

| | |
|---|--|
| Institutional tuition fee for non-EEA students*, joint degrees | |
| €12,320.00 | for the joint degree Bachelor's programmes in Chemistry and Physics and Astronomy of the Faculty of Science |
| €15,450.00 | for the Tinbergen Institute Master of Philosophy in Economics (Tinbergen Graduate School) |
| €15,000.00 | for the joint research Master's programme in Business in Society of the Faculty of Economics and Business |
| €15,500.00 | for the joint degree Master's programme in Entrepreneurship of the Faculty of Economics and Business |
| €14,630.00 | for the joint degree Master's programmes Chemistry, Physics and Astronomy and Computational Science, and Computer Science and Bioinformatics and Systems of the Faculty of Science |
| *This refers to non-EEA students as stipulated in Section 7.45a, sub-section 1 (b) WHW | |

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Appendix 2

1. For students from Columbia Law School New York enrolled for the LLM programme in International Criminal Law, institutional tuition fees equal to the full statutory tuition fee rate apply. For 2019-2020 the full statutory tuition fee rate is €2083.00. Enrolment is limited to a maximum of 8 students.
2. For students from outside the EEA who are enrolled in the Erasmus Mundus Master's programme ATOSIM (within the Master's programme in Physics or Chemistry), institutional tuition fees at the full statutory tuition fee rate apply for each academic year during the period in which they are enrolled at the UvA. For 2019-2020 the statutory tuition fee rate is €2083.00.
3. For students who receive a scholarship within the framework of Erasmus Mundus Action 2, institutional tuition fees of €3,000.00 apply for each academic year during the period in which they are enrolled at the UvA.
4. Non-EEA students taking the Master's programme in Logic or the Master's programme in Computational Science who receive a scholarship from the so-called 'Beth beurs' (Logic) or the 'Peter Slootfonds' (Computational Science) pay an institutional tuition fee rate equal to the full statutory tuition fee rate. For 2019-2020 the full statutory tuition fee rate is €2083.00.
5. For students who have already obtained a Bachelor's degree and who enrol for the Bachelor's programme in Pedagogical Sciences within the Academic PABO Amsterdam (UPvA), an institutional tuition fee rate equal to the full statutory tuition fee rate applies if they also (and first) enrol in the relevant Amsterdam University of Applied Sciences degree programme. For 2019-2020 the full statutory tuition fee rate is €2083.00.
6. For students who have already obtained a Master's degree in Dentistry and who enrol as a transfer student (zij-instromer) for the Master's programme in Medicine, an institutional tuition fee rate equal to the full statutory tuition fee rate applies. For 2019-2020 the full statutory tuition fee rate is €2083.00.
7. Students who have already obtained a Bachelor's and a Master's degree, or have completed a unified programme in medicine, who are conducting PhD research at the UvA and have been promised a training position in the Oral & Maxillofacial surgery department in the AMC, will pay institutional tuition fees at the full statutory tuition fee rate when enrolling for the Bachelor's or Master's programme in Dentistry. For 2019-2020 the full statutory tuition fee rate is €2083.00.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

Appendix 3

Those enrolled as students at the following institutions or in one or more of the following degree programmes and who have paid the institutional tuition fees at that institution will be exempt from payment of tuition fees upon their enrolment as a student at the UvA:

1. The Amsterdam University of Applied Sciences.
2. Amsterdam University College, in the event of a first enrolment at the Vrije Universiteit Amsterdam.
3. The following joint degrees in the event of a first enrolment at the Vrije Universiteit Amsterdam.
 - Bachelor's programme in Chemistry;
 - Bachelor's programme in Physics and Astronomy;
 - Master's programme in Bioinformatics and Systems Biology
 - Master's programme in Physics and Astronomy;
 - Master's programme in Chemistry;
 - Master's programme in Computational Science;
 - Master's programme in Computer Science;
 - Master's programme in Entrepreneurship;
 - Joint research Master's programme in Business in Society.
4. The degree programmes offered jointly with the Vrije Universiteit Amsterdam, in the event of enrolment at the Vrije Universiteit Amsterdam.
 - Bachelor's programme in Mathematics;
 - Bachelor's programme in Archaeology
 - Bachelor's programme in Greek and Latin Language and Culture
 - Bachelor's programme in Ancient Studies
 - Master's programme in Mathematics;
 - Master's programme in Stochastics and Financial Mathematics;
 - Master's programme in Life Sciences;
 - Master's programme in Information Studies;
 - Green Life Sciences track in the Master's programme in Biological Sciences;
 - Ecology and Evolution track in the Master's programme in Biological Sciences;
 - Master's programme in Archaeology;
 - Research Master's programme in Classics and Ancient Civilisations;
 - Master's programme in Classics and Ancient Civilisations;
 - Work-study (duale) Master's programme in Heritage Studies;
5. The Dutch Master's Programme in Mathematics.
6. The Master's programmes that are part of the national collaboration in Language Master's programmes (Masterlanguage), specifically:
 - Middle Eastern Studies;
 - Literary Studies;
 - Linguistics;
 - Classics and Ancient Civilisations;
 - Dutch Studies.
7. Students of the Master's programmes in Arts and Culture and Theology and Religious Studies at Utrecht University, who are 'guest students' (bijvakstudenten) in Master's programmes at the Faculty of Humanities of the UvA.
8. Students of the Research and Educational Master's programmes in the Humanities at Utrecht University, Vrije Universiteit Amsterdam and Leiden University, who are 'guest students' in Master's programmes at the Faculty of Humanities of the UvA.

These provisions were adopted by decision of the Executive Board,
Decision no. 2018-070395

9. Students of the Amsterdam School of the Arts (Amsterdamse Hogeschool voor de Kunsten) who are guests students on the degree programmes at the Faculty of Humanities of the UvA listed alongside them:
 - The Academy of Fine Art in Education (Academie voor Beeldende Vorming) on the degree programmes Cultural Studies and Art History;
 - The Academy of Architecture (Academie van Bouwkunst) on the degree programme Art History;
 - The Conservatorium of Amsterdam on the degree programme Musicology;
 - The Netherlands Film Academy (Nederlandse Film en Televisie Academie) on the degree programme Media and Culture;
 - The Theaterschool on the degree programme Theatre Studies;
 - The Reinwardt Academie on the degree programmes Cultural Studies, Art History Conservation and Restoration of Cultural Heritage.
10. Students of the Rietveld Academie on the degree programmes Art History and Conservation and Restoration of Cultural Heritage in the Faculty of Humanities.
11. Students of other institutions who are guest students in the Master's degree programme Medical Anthropology and Sociology for a maximum of 6 ECTS.

Appendix 4, as specified in Article 1.2, paragraph 1.5 and 1.6 of the Enrolment Provisions for 2019-2020 Admission requirements old-style VWO diploma/old VWO diploma/first-year HBO diploma

| Degree programme | Old-style VWO diploma (diplomas from before the introduction of subject clusters in secondary education) | Old VWO diploma (diplomas awarded between old-style VWO diplomas and the current VWO diplomas incorporating the changes to subject clusters introduced in 2010 ¹) | First-year HBO diploma |

REGULATIONS GOVERNING SELECTION AND PLACEMENT FOR FIXED QUOTA DEGREE PROGRAMMES AT THE UvA

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Pursuant to Section 7.53 of the Dutch Higher Education and Research Act (*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW) and the Higher Education Application and Selection Regulations (*Regeling aanmelding en toelating hoger onderwijs*, RATHO).

Article 1

Definitions

- a. prospective students: persons who have applied, via Studielink, for a degree programme at the University of Amsterdam (UvA), who are not currently listed as enrolled in that programme;
- b. fixed quota degree programme: degree programme for which a limited number of students can be enrolled pursuant to Section 7.53 or 7.56 of the WHW;
- c. selection: the procedure on the basis of which prospective students who have applied for a fixed quota degree programme are selected;
- d. UvA Matching: the choice of degree programme activity that the UvA offers to prospective students for a given Bachelor's programme, not being a fixed quota or other selective programme, with a view to providing a recommendation on their choice of degree programme;
- e. ranking number: unique number which the UvA assigns to a prospective student who has gone through the selection procedure, showing how the prospective student was assessed in comparison to the other participants in the selection procedure;
- f. placement certificate: a message sent via Studielink that shows that a prospective student has completed the selection procedure for a particular fixed quota degree programme and has been placed within the relevant programme capacity. Prospective students must accept such a placement certificate in Studielink within 14 days of receipt;
- g. enrolment: prospective students who meet the statutory educational entry requirements and the terms and conditions of admission stipulated in the UvA Enrolment Provisions can enrol as students at the UvA. The head of the Central Student Administration is charged with implementing the Enrolment Provisions and determines whether prospective students can enrol as a student on the programme applied for.
- h. UvA Enrolment Provisions: the decision, as referred to in WHW Section 7.33, establishing the procedural rules on the basis of which students are enrolled at the UvA for a particular academic year.

Article 2

Submission of applications by 15 January

1. Prospective students who wish to take part in the selection procedure for a fixed quota degree programme must register for the programme concerned via Studielink by 15 January.
2. Prospective students who apply for the fixed quota degree programme in Medicine or Dentistry and who have applied for the same programme at another institution will not be invited to take part in the selection procedure at the UvA.¹
3. Prospective students who apply for a fixed quota degree programme at the UvA who have previously applied for the same programme at the UvA will not be invited to take part in the selection procedure, unless the dean of the programme concerned has stipulated in the selection

¹ For Medicine and Dentistry, applying through Studielink for the same programme at multiple institutions for the same academic year is not possible.

procedure that a prospective student may apply for the fixed quota degree programme concerned twice or three times, and that number has not yet been exceeded.²

4. Applications withdrawn by prospective students via Studielink before 15 January will be cancelled.
5. Prospective students who fail to obtain the diploma or degree certificate required for admission and withdraw their application via Studielink between 15 January and 31 August can request in writing cancellation of their application for the programme concerned for the academic year in question at the UvA.
6. Requests submitted on time, including proof that the prospective student has failed to obtain the diploma or degree certificate concerned, will be processed by the Central Student Administration before 1 October of the following academic year.

Article 3

Selection

1. Selection takes place in accordance with the selection criteria and procedure drawn up by the dean and adopted by the Executive Board.
2. The selection procedure takes into account the interests of prospective students from the public bodies of Bonaire, Sint Eustatius and Saba, and Aruba, Curaçao and Sint Maarten, respectively.
3. If the number of applications is less than the number of available places, no selection will take place, and the prospective student will be entitled to a choice of degree programme activity within the meaning of UvA matching³.

Article 4

Ranking numbers and placement certificates

1. The UvA informs the prospective student about the results of the selection procedure via Studielink and also issues a placement certificate, or, if the prospective student is not among the prospective students eligible for admission on the basis of the selection procedure, assigns a ranking number on the basis of which any placement certificates made available can be issued.
2. A placement certificate expires by operation of law if the prospective student to whom the certificate is issued does not accept it via Studielink within 14 days of receipt.
3. The placement certificate that becomes available will subsequently be issued to the prospective student with the next ranking number, who has not yet been issued a confirmation of admission. The second paragraph applies by analogy.
4. The dean of the faculty concerned will include the deadline for the issuing of placement certificates for the programme in question in the selection procedure. This date must be between 1 August and 15 September.
5. If the dean for the programme in question does not set a deadline for the issuing of placement certificates, the deadline will be 15 September.

Article 5

Educational entry requirements and further educational entry requirements

1. Prospective students who could be admitted to a fixed quota degree programme on the basis of a placement certificate must show by 15 July that they satisfy the educational entry requirements and further educational entry requirements for the programme in question.
2. If a prospective student cannot satisfy the requirement in the previous paragraph, the Central Student Administration will, at the request of the prospective student, set a new deadline by which this condition must be met. This deadline will be no later than 31 August, unless the

² This includes participation in decentralised selection and/or a draw in the past from the 2000-2001 academic year.

³ In these cases, too, the application deadline is 15 January.

prospective student is issued a placement certificate after 31 August. In that case, the deadline by which the prospective student must show that he/she satisfies the educational entry requirements and further educational entry requirements for the programme in question will be 14 days after receipt of the placement certificate.

3. If the prospective student has not fulfilled the obligation referred to in paragraph 1 and has not submitted a request for a new deadline, or if the new deadline has expired, the placement certificate will become void for the candidate concerned. Article 4, paragraphs 3 and 4, applies by analogy.

Adoption and entry into force

These regulations were adopted by the Executive Board in a decision on 25 July 2016, 2016cb0257. They took effect on 1 October 2016 and were last amended by decision on 19 September 2017 Decision no 2017-064377.

SELECTION FOR BACHELOR'S PROGRAMME IN MEDICINE AT AMC-UvA ACADEMIC YEAR 2019-2020

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-058273 dated 18 September 2018

The requirements to be fulfilled for the selection for degree programmes with an enrolment restriction are laid down in the Higher Education and Scientific Research Act (*Wet op het Hoger onderwijs en Wetenschappelijk onderzoek, WHW*) and the 'Higher Education Application and Selection Regulations' (*Regeling aanmelding en toelating hoger onderwijs, Ratho*).

The 'Regulations governing Selection and Placement for UvA Fixed Quota Degree Programmes' (*Regeling selectie en plaatsing fixusopleidingen UvA*) are also applicable.

Since students are allowed to participate in two selection procedures (of which only one may be for Medicine), each round of tests will be held on two different dates, taking into account the possibility that the selection days may coincide with those of other degree programmes.

The general rules for the selection for Medicine at the AMC-UvA are as follows:

- you must apply for the selection procedure via Studielink **before 15 January 2019**;
- you may apply for only one selection procedure for Medicine per academic year;
- in your application for the selection procedure, you must indicate the University of Amsterdam as your first choice of university.
- you may take part in the AMC-UvA selection procedure only once.

The following certificates/diplomas provide access to the AMC-UvA selection procedure:

- Pre-university diploma (*VWO*) obtained in 2010 or later: subject clusters - Nature & Health with Physics or Nature & Technology with Biology (must have been obtained *before* the start of the 2019-2020 academic year).
- Other pre-university education subject clusters obtained in 2010 or later: passes in Biology, Mathematics A or B, Physics and Chemistry are compulsory. You will have to take an additional examination if you have not passed any (one) of these four subjects at the pre-university education level. These deficiencies must be rectified before **15 July 2019**.
- Pre-university diploma obtained before 2010: passes in Biology 1+2, Mathematics B1 or A1,2, Physics 1 and Chemistry 1 at the pre-university education-level are compulsory. You will have to take an additional examination if you have not passed any (one) of these four subjects at the pre-university education level. These deficiencies must be rectified before **15 July 2019**.
- Earlier model of pre-university education (*VWO-oud*): school-leaving examination package with seven or more subjects, including passes for Chemistry, Physics, Biology and Mathematics A or B. You will have to take an additional examination if you have not passed any (one) of these four subjects at the pre-university education level. These deficiencies must be rectified before **15 July 2019**.
- Certificate at HBO (higher professional education) or WO (university) level. Any deficiencies in Physics, Chemistry, Mathematics and/or Biology at the pre-university education level must be rectified before **15 July 2019**.
- If your previous education was abroad or if you do not have one of the above certificates/diplomas, your certificates/diplomas must be evaluated by the head of the UvA Central Student Administration to establish whether they can be used for admission to the degree programme.

Deficiencies can be rectified by obtaining certificates for each completed module of pre-university education or by taking examinations organised by the Central Committees for Preliminary Examinations in Physics, Chemistry, Biology and Mathematics (Centrale Commissies Voortentamen Natuurkunde, Scheikunde, Biologie en Wiskunde) of the VSNU, the Association of Universities in the Netherlands.

Selection criteria. You must present a certified transcript of the *most recent qualifying marks* from the previous educational programme for the subjects Mathematics A or B, Physics, Chemistry, Biology, Dutch and English. For most candidates, this refers to the transition report from VWO 5 to 6 for these subjects. For those who have previously passed the VWO school-leaving examination, it refers to the marks for the school-leaving examination. For candidates with HBO degree certificates and a diploma and previous education at the HAVO level, it refers to the supplementary examination marks at the VWO level or, if these marks have not (or not yet) been achieved, the marks on the school-leaving examination at the HAVO level. For candidates who received their previous education abroad, the results for the equivalent subjects will be used.

The first aspect to be tested will be the ability to master a substantial amount of biomedical subject matter. To this end, we will assess whether you will be able to fit time for studying materials presented in writing and in a video lecture into your study schedule. This test can be regarded as a study skills test. Candidates who are highly motivated to participate in the degree programme and who have good study planning skills will score well on this component.

The second aspect to be assessed will be the ability to apply basic VWO-level knowledge on the principles of natural science to a medical-biological context. There is no need to prepare for this test. To score well on this component, candidates should possess strong analytical skills.

Finally, on the third test, you will be asked to reflect in writing on medical-ethical issues. This will assess whether you are capable of analysing and providing arguments for dilemmas and/or issues in clear language, thereby arriving at a carefully considered opinion.

The procedure:

- In the second half of January 2019, you will be invited to participate in the selection procedure.
- The first round will be held *in February 2019*. *The exact dates will be announced on the degree programme's website.*
- *At least 10 days before the testing date*, the written study material and/or a video lecture will be made available online. You may study this material at home.
- Subsequently, you will be invited to the AMC to take two multiple-choice tests and to write the medical-ethical reflections (Test 3). Test 1 assesses whether you have understood the content of the self-study material provided. Test 2 assesses your ability to apply the principles and basic knowledge of natural science in a biomedical context.
- Based on the results of Tests 1 and 2, up to 300 candidates with the best scores will be placed immediately. Each of these students will be assigned a ranking number that leads to admission. The ranking numbers of candidates who are not placed immediately up to and including 450 will be determined according to the results of Tests 1, 2 and 3, as well as on the most recent qualifying marks from the previous educational programme. At this point, the score on Test 3 and the most recent qualifying marks from the previous educational programme will be used to assign a further ranking in the classes having the same results on Tests 1 and 2. The highest-scoring candidates from this group will be admitted to the degree programme, until the maximum of 350 is reached.
- The other candidates will be assigned ranking numbers based on their results on Tests 1 and 2.

**Time schedule**

| | | |
|----------|-----------------------------------|--|
| 1 | 15 January 2019 | deadline for enrolment via Studielink |
| 2 | second half of January | confirmation of candidate's participation (email), deadline for applications and requests for additional time xx February 2019 and announce submission of the transition report from VWO 5 to 6 on the test date |
| 3 | second half of February | test invitations sent (email) |
| 4 | at least 10 days before the tests | study material for Test 1 posted online |
| 5 | February | tests 1, 2 and 3 |
| 6 | March | marks from Year 5 of VWO submitted |
| 7 | March - to be determined | Results announced |
| 8 | April - to be determined | results sent to candidates |

FACULTY REGULATIONS FOR ACTA SELECTION 2019-2020

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-068608 dated 24 September 2018

Introduction

The minister has determined that, with effect from the academic year 2017-2018, the draw procedure will be discontinued for degree programmes with an enrolment restriction. In this context, candidates may enrol for only one degree programme in Dentistry at a time. However, they may simultaneously enrol for another degree programme with an enrolment restriction, such as Medicine.

Available places

The number of spaces available is 79 at the UvA (55%) and 65 at VU Amsterdam (45%).

Admission requirements

The criteria for participating in the selection procedure at ACTA are the same as the supplementary educational entry requirements for the Dentistry programme at ACTA. A candidate may apply for the selection procedure at ACTA a maximum of two times: once via the UvA and once via VU Amsterdam. For this, the candidate must enrol via Studielink by 15 January 2019 at the latest. To participate in the selection procedure, candidates must be able to demonstrate plausibly that they will be able to meet the educational entry requirements by 15 July 2019 at the latest. By way of exception, at the request of the candidate, the last date for meeting these requirements may be postponed to 31 August 2019; this request must be submitted to the university in question by 15 July 2019 at the latest.

Selection criteria

1. **Orientation.** A demonstrable orientation towards both the Dentistry programme as well as the field of dentistry will be strongly taken into account. The following two indicators are considered:
 - a. a demonstrable orientation towards the Dentistry programme at ACTA, evidenced through participation in the so-called 'taster sessions'. If it is not possible or feasible for someone to participate in the ACTA taster sessions, the candidate may contact the ACTA Selection Committee, at the latest on the latest registration date for the taster sessions, to see whether a solution can be found.
 - b. a demonstrable orientation towards the field of dentistry. The candidate is expected to have shadowed in a dental practice for at least one day. This shadowing should take place in the period from 01 January 2016 to 02 February 2019.
2. **School marks.** Good marks in pre-university education (VWO) have proved to be an indicator of study success in a medical or biomedical degree programme. This is taken into consideration in the following manner: For candidates who already have a pre-university diploma, the final examination marks are taken into account; for other candidates, the transition report from VWO 5 to 6 is taken into consideration.
 - a. candidates with an average mark of at least 7.5 for the six compulsory subjects of pre-university education (i.e. Dutch, English, Mathematics, Physics, Chemistry and Biology) and demonstrable motivation will be assigned the lowest ranking numbers, provided they also meet the other conditions of the selection procedure;
 - b. school marks below 7.5 are important as well. In the final selection, the average mark carries a lot of weight. A candidate with an average mark of 7 is more likely to receive a lower ranking number at ACTA than a candidate with an average mark of 6.
3. **Curriculum Vitae.** The following extra-curricular criteria are considered:
 - a. involvement in the provision of care, in the broadest sense;
 - b. administrative and organisational experience;

- c. outstanding achievements;
- d. motivation, in addition to the things mentioned under point 1b:
 - i. motivation letter, substantiating the decision to study dentistry and why the candidate wishes to do this at ACTA;
 - ii. frequency, duration, variation and content of the shadowing at a dental practice or similar institution in the field of oral care;
 - iii. other evidence of demonstrable motivation to follow a programme in the field of dentistry.
4. Quality of the personal file. The documents referred to under points 1 to 3 are part of the candidate's personal file. The overall quality of the file is assessed based on the following criteria:
 - a. completeness;
 - b. use of language;
 - c. quality of the supporting documents.
5. Relevant tests. Candidates must complete a number of tests relevant to the study programme and the field of study during the assessment day. One or more of the following skills will be assessed:
 - a. ability to apply basic knowledge of the principles of natural science gained from pre-university education and knowledge gained from the study materials, which will be provided to the candidate between 16 and 18 January, within a medical-biological context, relevant to the field of dentistry;
 - b. language skills;
 - c. social intelligence and communication;
 - d. understanding of figures;
 - e. spatial awareness;
 - f. logical reasoning.

Time schedule

- By 15 January 2019 at the latest: enrolment via Studielink.
- By 18 January 2019 at the latest: all candidates will receive information via email regarding the submission of the personal file, as well as an invitation to participate in the assessment day. This invitation also includes information on how a candidate can prepare for the assessment day.
- Saturday 02 February 2019: assessment day and submission of the personal file.
- 15 April 2019: publication of the selection results and ranking numbers.

Ranking numbers

- **UvA and VU Amsterdam**. For the UvA 55% and for VU Amsterdam 45% of the places are available. Each candidate enrolls for one of these two universities. Despite the fact that this involves a single programme at ACTA and a single selection procedure, separate lists with ranking numbers are drawn up for the UvA and VU Amsterdam.
- **Routes A and B**. ACTA makes a distinction between 'Route A' and 'Route B'. The ranking numbers are determined such that 70% of the places are assigned to Route A candidates and 30% to Route B candidates.
- **Route A** is for candidates who do not yet have a pre-university diploma, but who can plausibly demonstrate that they will be able to meet the supplementary educational entry requirements for the Dentistry programme by 15 July 2019 at the latest. Route A is never intended for candidates who have previously started a higher professional or university degree programme or for those who are currently working on a university entrance examination.
- **Route B** is for all other candidates who will be able to meet the supplementary educational entry requirements for the Dentistry programme by 15 July 2019 at the latest.
- **Groups I and II**. Subsequently, the following two groups will be distinguished in order to assign ranking numbers, with numbers being assigned to Group I first, followed by Group II.

- I. All candidates who have obtained an average school mark of at least 7.5 at the pre-university education level for the six compulsory subjects (i.e. Dutch, English, Mathematics, Physics, Chemistry and Biology). These candidates must show a demonstrable level of motivation, both in terms of orientation towards the Dentistry programme at ACTA (assessed based on participation in the ACTA taster sessions) as well as orientation towards the field of dentistry (assessed based on at least one day of shadowing in a dental practice). The candidates must also meet the other terms and conditions for the selection procedure;
 - II. All other candidates who have participated in the assessment day.
- **Ranking numbers.** All candidates who have enrolled via Studielink in time, participated in the assessment day on 02 February 2019 and submitted a personal file on that day will receive a ranking number. Candidates who have enrolled, but who have not submitted a personal file or participated in the test day, will not receive a ranking number and will not be selected. The ranking number is determined based on the scores for the above-mentioned selection criteria.

Foreign candidates

- Candidates from the Caribbean Netherlands. These candidates are assessed via the same method as candidates from the Netherlands. If it is not possible or feasible for a candidate to participate in the assessment day in the Netherlands, they will be given the opportunity, on request, to take the same tests at an acceptable location, under controlled conditions.
- Other foreign candidates. These candidates are assessed via the same method as candidates from the Netherlands. If it is not possible or feasible for a candidate to participate in the assessment day in the Netherlands, they may submit a substantiated request by 18 January 2019 at the latest to the Selection Committee to take the tests at the same location as the candidates from the Caribbean Netherlands. Candidates who do not participate in the assessment day will not receive a ranking number.

Objection and appeal

From the legal perspective, this falls under the respective universities.

Taster sessions

- The taster sessions provide an orientation to the Dentistry programme at ACTA, both for the theoretical as well as the practical part.
- Candidates may participate in these sessions only once; if someone has previously participated in these sessions at ACTA, they may not participate again since there is a limited capacity.
- All candidates who can plausibly demonstrate that they will be able to meet the supplementary educational entry requirements for the Dentistry programme by 15 July 2019 at the latest will be given the opportunity to participate in these sessions.
- In any event, the taster sessions will be organised in the period from October 2018 to January 2019.

Faculty of Science

**SELECTION PROCEDURE FOR BIOMEDICAL SCIENCES
PROCEDURE AND SELECTION CRITERIA 2019-2020**

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-058273 dated 18 September 2018

In the 2019-2020 academic year, an enrolment restriction will apply for the degree programme in Biomedical Sciences, with the capacity set at 200 first-year students.

1. Educational entry requirements for the Bachelor's degree programme in Biomedical Sciences
Only candidates who meet the educational entry requirements for the degree programme may be admitted to the programme. In many cases, it is not possible for candidates to meet the entry requirements at the time of the selection period. Candidates who successfully pass the selection procedure may be admitted to the programme if they meet the conditions set out in the 'UvA Regulations governing Selection and Placement' (*Regeling selectie en plaatsing UvA*). In addition to these centralised regulations, the Bachelor's degree programme in Biomedical Sciences will issue placement certificates up to 31 August.
The educational entry requirements for the programme are laid down in the Teaching and Examination Regulations (*Onderwijs- en Examenregeling, OER*) of the Biomedical Sciences degree programme, specifically in Articles 2.1, 2.2 and 2.3 of the OER Part A and Articles 3.1 and 3.2 of the OER Part B.
2. Selection procedure for Biomedical Sciences 2019-2020

Target group

All prospective students who have enrolled for the Biomedical Sciences degree programme at the UvA via Studielink before 15 January. A prospective student may participate in the selection procedure no more than once.

Selection procedure

The tests for the Bachelor's degree programme in Biomedical Sciences focus on the ability to acquire new knowledge and insight quickly (within the course of the selection procedure, between the teaching day and the assessment day) and to reproduce and apply it during the test. We use the 'curriculum sampling method' to determine the topics. A topic from the beginning of the first academic year (Cell Signalling) and a topic from the end of the first academic year (Genetic Metabolic Diseases) will be taught and tested.

The non-cognitive element consists of asking students about their motivation and learning strategies. Students are assessed on their ability to reflect on their attitudes toward studying (e.g. orientation to the material, planning, study methods). To determine the scores, we use a mark on the test that has been 'corrected for guessing'.

In determining the selection procedure, it has been taken into consideration that many of the methods for measuring motivation are sensitive to subjective factors. The most proximal predictor for measuring motivation is to require a significant best-efforts obligation from the candidates. Candidates are expected to devote considerable effort (approximately 20-24 hours) to self-study in order to complete the tests successfully. For this reason, motivation plays an indirect role in determining the likelihood of admission.

Selection process

The selection takes place between 15 January (end date for enrolment) and 15 April (publication of results via Studielink) and is organised as follows:

- a) From three weeks prior to the assessment day, all study materials are made available online to all participants via Blackboard.
- b) During the three weeks preceding the assessment day, two half-day sessions with lectures on the study material are offered on location. These lectures are not compulsory, and they will also be made available online.
- c) Participants may study the material during the self-study period of three weeks prior to the test and, if desired, participate in the lectures on location. The indicative self-study time is 16 hours.
- d) During the final assessment day, students must complete two tests designed to test their cognitive and non-cognitive abilities.

Ranking

The average score obtained in the tests determines the prospective student's position on the ranking list. The 200 students with the highest scores will be placed on the ranking list of selected candidates.

Foreign students

Prospective students from the Netherlands Antilles (ABC and BES Islands) who have enrolled for the programme before 15 January via Studielink and who meet or intend to meet the educational entry requirements, will be given the opportunity to take the same tests at a different location, under controlled circumstances.

More information for prospective students is available on the following website:

[Bachelor's degree programmes](#) (Dutch only)

Faculty of Science

**SELECTION FOR ARTIFICIAL INTELLIGENCE
PROCEDURE AND SELECTION CRITERIA 2019-2020**

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-058273 dated 18 September 2018

In the 2019-2020 academic year, an enrolment restriction will apply for the degree programme in Artificial Intelligence, with the capacity set at 200 first-year students.

1. Educational entry requirements for the Bachelor's degree programme in Artificial Intelligence

Only candidates who meet the educational entry requirements for the degree programme may be admitted to the programme. In many cases, it is not possible for candidates to meet the entry requirements at the time of the selection period. Candidates who successfully pass the selection procedure may be admitted to the programme if they meet the conditions set out in the 'UvA Regulations governing Selection and Placement' (*Regeling selectie en plaatsing UvA*). In addition to these centralised regulations, the Bachelor's degree programme in Artificial Intelligence will issue placement certificates up to 31 August.

The educational entry requirements for the programme are laid down in the Teaching and Examination Regulations (*Onderwijs- en Examenregeling, OER*) of the Artificial Intelligence degree programme, specifically in Articles 2.1, 2.2 and 2.3 of the OER Part A and Articles 3.1 and 3.2 of the OER Part B.

2. Selection procedure for Artificial Intelligence 2019-2020

Target group

All prospective students who have enrolled for the Artificial Intelligence degree programme at the UvA via Studielink before 15 January. A prospective student may participate in the selection procedure no more than twice.

Selection criteria

The selection criteria are designed to provide the best possible predictor of study success. In the selection week, we have highlighted a number of important programme components: programming skills and mathematical insight. Each candidate takes two lectures (on location or online), studies independently for two weeks using the syllabuses in the digital learning environment and completes a test on the two topics. The topics for self-study and testing are as follows:

1. Multi-dimensional Vectors;
2. Logical Programming.

The topics cover a part of the skills objectives (Logical Programming) and a part of the knowledge objectives (Multi-dimensional Vectors), thereby providing a good overview of topics that will be encountered during the degree programme (the curriculum sampling method), because programming skills and mathematical insight are the most important characteristics that are expected of our graduates. Candidates who possess the talent to master these skills and this insight in a short time will score well on this combination test.

In determining the selection procedure, it has been taken into consideration that many of the methods for measuring motivation are sensitive to subjective factors. The most proximal predictor for measuring motivation is to require a significant best-efforts obligation from the candidates. Candidates are expected to devote considerable effort (approximately 20-24 hours) to self-study in order to complete the tests successfully. For this reason, motivation plays an indirect role in determining the likelihood of admission.

Selection process

The selection takes place between 15 January (end date for enrolment) and 15 April (publication of results via Studielink) and is organised as follows:

- a) From at least three weeks prior to the assessment day, all study materials are made available online to all participants via Blackboard.
- b) During this period preceding the assessment day, two one-day sessions with lectures on the study material and a computer lab session are offered on location. Participation in these sessions is recommended but not compulsory; the lectures and study materials are also made available online.
- c) Participants may study the material during the self-study period prior to the test and, if desired, participate in the lectures and computer lab session on location. The indicative study time is 15-25 hours.
- d) During the final assessment day, students must complete two tests designed to test their cognitive and non-cognitive abilities.

Ranking

The average score obtained in the tests determines the prospective student's position on the ranking list. The 200 students with the highest scores will be placed on the ranking list of selected candidates.

Foreign students

Prospective students from the Netherlands Antilles (ABC and BES Islands) who have enrolled for the programme before 15 January via Studielink and who meet or intend to meet the educational entry requirements, will be given the opportunity to take the same tests at a different location, under controlled circumstances.

More information for prospective students is available on the following website:

**SELECTION FOR PSYCHOBIOLOGY
PROCEDURE AND SELECTION CRITERIA 2019-2020**

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-058273 dated 18 September 2018

In the 2019-2020 academic year, an enrolment restriction will apply for the degree programme in Psychobiology, with the capacity set at 250 first-year students.

1. Educational entry requirements for the Bachelor's degree programme in Psychobiology.

Only candidates who meet the educational entry requirements for the degree programme may be admitted to the programme. In many cases, it is not possible for candidates to meet the entry requirements at the time of the selection period. Candidates who successfully pass the selection procedure may be admitted to the programme if they meet the conditions set out in the 'UvA Regulations governing Selection and Placement' (*Regeling selectie en plaatsing UvA*). In addition to these centralised regulations, the Bachelor's degree programme in Psychobiology will issue placement certificates up to 31 August.

The educational entry requirements for the programme are laid down in the Teaching and Examination Regulations (*Onderwijs- en Examenregeling, OER*) of the Psychobiology programme, specifically in Articles 2.1, 2.2 and 2.3 of the OER Part A and Articles 3.1 and 3.2 of the OER Part B.

2. Selection procedure for Psychobiology 2019-2020

Target group

All prospective students who have enrolled for the Psychobiology degree programme at the UvA via Studielink before 15 January. A prospective student may participate in the selection procedure no more than twice.

Selection criteria

The selection criteria are designed to provide the best possible predictor of study success. In the selection week, we have highlighted a number of important programme components: information processing and self-study. Each candidate takes two lectures (on location or online), studies independently using the literature and a digital learning environment and completes a test on the two topics. The topics for self-study and testing are as follows:

1. Visual Perception;
2. Genetics.

The topics cover a part of the degree programme's objectives with regard to knowledge and insight, thereby providing the most representative possible image of the programme. The beginning of the programme is highlighted. The topics are addressed in the first semester, which is also representative of the programme (the curriculum sampling method). Candidates who are able to distinguish between the main issue and side issues, who can work independently and who can apply the knowledge and insight that they have acquired during the test, will score well on the combination test.

In determining the selection procedure, it has been taken into consideration that many of the methods for measuring motivation are sensitive to subjective factors. The most proximal predictor for measuring motivation is to require a significant best-efforts obligation from the candidates. Candidates are expected to devote considerable effort (approximately 20-24 hours) to self-study in order to complete the tests successfully. For this reason, motivation plays an indirect role in determining the likelihood of admission.

Selection process

The selection takes place between 15 January (end date for enrolment) and 15 April (publication of results via Studielink) and is organised as follows:

- a) From three weeks prior to the assessment day, all study materials are made available online to all participants via Blackboard.
- b) During the three weeks preceding the assessment day, two half-day sessions with lectures on the study material are offered on location. These lectures are not compulsory, and they will also be made available online.
- c) Participants may study the material during the self-study period of three weeks prior to the test and, if desired, participate in the lectures on location. The indicative time required for this study is 15 to 25 hours.
- d) During the final assessment day, students must complete two tests designed to test their cognitive and non-cognitive abilities.

Ranking

The average score obtained in the tests determines the prospective student's position on the ranking list. The 250 students with the highest scores will be placed on the ranking list of selected candidates.

Foreign students

Prospective students from the Netherlands Antilles (ABC and BES Islands) who have enrolled for the programme before 15 January via Studielink and who meet or intend to meet the educational entry requirements, will be given the opportunity to take the same tests at a different location, under controlled circumstances.

More information for prospective students is available on the following website:

[Bachelor's degree programmes](#) (Dutch only)

SELECTION FOR PSYCHOLOGY PROCEDURE AND SELECTION CRITERIA 2019-2020

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-058273 dated 18 September 2018

The maximum number of student places for the degree programme in Psychology for the 2019-2020 academic year has been set at 600 first-year students.

1. Educational entry requirements for the Bachelor's degree programme in Psychology

Only candidates who meet the educational entry requirements for the degree programme may be admitted to the programme. In many cases, it is not possible for candidates to meet the entry requirements at the time of the selection period. Candidates who successfully pass the selection procedure may be admitted to the programme if they meet the conditions set out in the 'UvA Regulations governing Selection and Placement' (*Regeling selectie en plaatsing UvA*). In addition to these centralised regulations, the Bachelor's degree programme in Psychology will issue placement certificates up to 15 August.

The educational entry requirements for the programme are laid down in the Teaching and Examination Regulations (*Onderwijs- en Examenregeling, OER*) of the Psychology programme, specifically in Articles 2.1, 2.2 and 2.4 of the OER Part A and Articles 3.1 and 3.2 of the OER Part B. A supplementary language requirement applies, as specified in the OER Part B, Article 3.3.

2. Selection procedure for Psychology 2019-2020

Target group

All candidates who have registered in Studielink for the degree programme in Psychology at the UvA no later than 15 January. A candidate may enrol no more than once for the selection for Psychology at the UvA.

Selection criteria

The selection criteria are designed to provide the best possible predictor of study success. In the selection week, we have highlighted a number of important programme components: information processing and self-study. Each candidate takes two lectures (live or online), studies independently for one week using the literature and the digital learning environment and completes a test on the two topics.

The topics for self-study and testing are as follows:

1. Research Methods and Statistics;
2. Psychological Theory and (Experimental) Testing.

The topics cover a part of the skills objectives (research skills) and a part of the knowledge objectives (Introduction to Psychology), in addition to providing the most complete possible overview of the study, given the central role of psychological theory building and research methods in our programme. Candidates who are able to distinguish between the main issue and side issues, who can work independently and acquire research skills, will score well in the combination test.

In determining the selection procedure, it has been taken into consideration that many of the methods for measuring motivation are sensitive to subjective factors. The most proximal predictor for measuring motivation is to require a significant best-efforts obligation from the candidates. Candidates are expected to devote considerable effort (approximately 20-25 hours) to self-study in order to complete the tests successfully. For this reason, motivation plays an indirect role in determining the likelihood of admission.

Selection process

The selection takes place between 15 January (end date for enrolment) and 15 April (publication of results via Studielink) and is organised as follows:

- a) There are at least two test days from which the candidate can choose.
- b) At least one week prior to the selected assessment day, all study materials are made available online to all participants via the digital learning environment.
- c) At least one week prior to the selected assessment day, lectures explaining the course material will be offered on location. These lectures are not compulsory, and they will also be made available online.
- d) Participants may study the material during the self-study period of one week prior to the test and, if desired, participate in the lectures on location. The indicative time required for this study is 20 to 25 hours.
- c) During the final assessment day, candidates must complete two tests designed to test their cognitive characteristics and non-cognitive abilities.

Ranking

The weighted average score obtained in the tests determines the candidate's position on the ranking list. Candidates on the ranking list are invited through Studielink.

Candidates not residing in the Netherlands

Candidates from the Netherlands Antilles (ABC and BES Islands) who have enrolled for the programme no later than 15 January via Studielink and who meet or intend to meet the educational entry requirements, will be given the opportunity to take the test online under remote surveillance via 'online proctoring' (see Appendix).

Other candidates outside the Netherlands who have enrolled for the programme no later than 15 January via Studielink and who meet or intend to meet the educational entry requirements and for whom the distance from their places of residence to the assessment location in Amsterdam is greater than 300 kilometres, will be given the opportunity to take the test online under remote surveillance via 'online proctoring' (see Appendix).

More information for interested parties and candidates is available on the websites:

[bachelors/psychologie](#) (in Dutch)

[bachelors/psychology](#) (in English)

Appendix: Selection procedure for Psychology

Conditions and tips for taking the online selection test for the Bachelor's degree programme in Psychology 2019

If you take the online test, you will be completing a test at home, with digital surveillance of your surroundings. This procedure is known as proctoring. It will be provided by a third party.

- Once you have registered for the online test, you will receive an email containing instructions for preparing for the procedure. Prior to the actual test, take time to ensure that the testing location you have chosen meets all of the conditions. The preparation for the procedure will take about 30 minutes.
- Conditions for taking the online test are as follows:
 - you must be able to complete the test alone and without interruptions;
 - the only items you are allowed to have on your testing table besides your computer/laptop are water, a pencil and a blank sheet of paper;
 - before the test starts, you will grant your exam proctor permission to access your computer;
 - before the test starts, you will display your identity document in front of the webcam;
 - your computer/laptop must have:
 - Google Chrome installed* (this takes about 5–10 minutes);
 - a properly working microphone*;
 - properly working speakers*;
 - a good internet connection*;
 - a properly working webcam*;
- The video material and screen activity that are recorded will be checked according to the points in the protocol listed on the next page.
- By taking the online test, you consent to the conditions and the protocol listed in this document and the confirmation that you will receive in early February.
- In the Canvas digital learning environment, you will be able to:
 - view the recorded lectures;
 - locate the self-study material accompanying the lectures;
 - practise test questions.

* Prior to the selection week, you will receive instructions for how to check whether your computer and applications meet these conditions, and you will be able to practise the various steps.

**Protocol for the monitoring of the online test**

| Situation | Consequence |
|---|---|
| Internet problems on the candidate's computer | |
| The internet connection is interrupted briefly (e.g. for less than 20 seconds) once or twice per test. | None |
| The internet connection is interrupted briefly three or more times per test. | The test may be declared invalid. |
| The internet connection is interrupted for a longer period (e.g. 30 seconds or more). | The test may be declared invalid. |
| Problems with audio and video on the candidate's computer | |
| The audio and/or image freeze(s) briefly once or twice per test. | None |
| The audio and/or image freeze(s) briefly three or more times per test. | The test may be declared invalid. |
| The audio and/or video freezes for a longer period. | The test may be declared invalid. |
| Other people in the testing environment | |
| Someone enters the testing environment and exits quickly (e.g. within 5 seconds). | None |
| Someone enters the testing environment and remains for a longer period. | The test may be declared invalid. |
| Another person is present in the testing environment at the start of the test. | The test may be declared invalid. |
| The candidate speaks or has contact with someone else in another manner, whether visible or not, and the conversation consists of more than an exchange on the order of: The candidate says, 'Go away. I'm taking a test', and the other person says 'Okay, sorry'. | The test may be declared invalid. |
| Visibility of the candidate | |
| The candidate walks away from the computer and is no longer visible (e.g. to visit the restroom). | The test will probably be declared invalid. |
| Impermissible objects are present in the testing environment. | |
| The candidate has one or more impermissible objects present and visible. The only permissible objects are: a pen or pencil, blank paper, something to drink. | The test will probably be declared invalid. |

**ADDENDUM TO THE REGULATIONS FOR THE PROCEDURE AND SELECTION
CRITERIA FOR PSYCHOLOGY 2019-2020**

In a decision dated 19 November 2018 it was established that the first paragraph of the Regulations for the Procedure and Selection Criteria for Psychology 2019-2020, as adopted by the decision of 18 September 2018, no. 2018-058273 should read:

The maximum number of student places for the degree programme in Psychology for the 2019-2020 academic year has been set at **650** first-year students.

FACULTY REGULATIONS FOR FEB SELECTION AND PLACEMENT 2019-2020 for the Bachelor's degree programme in Business Administration

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Adopted by the Executive Board in decision no. 2018-027721 dated 17 April 2018

Enrolment quota

The maximum number of student places for the Bachelor's degree programme in Business Administration (hereinafter referred to as BA) for the 2019-2020 academic year has been set at 750 first-year students.

Educational prerequisites

Only candidates who meet the educational entry requirements for the degree programme may be admitted to the programme. In many cases, it is not possible for candidates to meet the entry requirements at the time of the selection period. Candidates who successfully pass the selection procedure may be admitted to the programme if they meet the conditions set out in the 'UvA Regulations governing Selection and Placement' (*Regeling selectie en plaatsing UvA*). In addition to these centralised regulations, the Bachelor's degree programme in BA will issue placement certificates up to 1 August.

The educational entry requirements are laid down in the Teaching and Examination Regulations (*Onderwijs- en Examenregeling, OER*) of the BA programme in Articles 2.1, 2.2, 2.3 and 2.4 of OER Part A and Articles 3.1, 3.2 and 3.3 of OER Part B.

Procedure for the decentralised selection

Target group

All prospective students who have (1) enrolled via Studielink on or before 15 January 2019 for the BA degree programme at the UvA, and (2) who have submitted a complete personal file via the FEB enrolment system on or before 31 January 2019 can participate in the selection. A complete file includes all the data available at that moment that are needed to determine the GPA, including the level of mathematics and English (selection criterion 1). A candidate may enrol a maximum of two times for the selection for BA at the UvA.

Selection criteria

Selection criteria have been set which have a predictive value for academic performance during the academic programme:

- (1) Grade Point Average (GPA) of the pre-university VWO diploma or the end-of-year marks for the penultimate year of pre-university education (5 VWO) including Mathematics A or B and English.**

Good marks for pre-university level VWO education have proven to be a good indicator for future study success for the economics and business studies programme at the FEB. For candidates who have already obtained their VWO diploma, the GPA of the final marks on the diploma count as selection criterion; for other VWO candidates, the end-of-year marks for the penultimate year (5 VWO) including Mathematics A or B and English are used. Students with pre-university education other than VWO, including international programmes, must demonstrate that they have passed Mathematics A or B and English at 5 VWO level. An overview is available showing how the GPA is determined for each target group (VWO, first-year certificate for Bachelor's programmes of higher professional education (HBO), international programmes, etc.). In order to make as fair as possible comparison of the GPAs of Dutch and international students, a grade comparison system is being drawn up, based on the NUFFIC evaluation.

(2) Academic and study skills (combination test)

The questions in the test are related to skills (study skills and research skills) and knowledge and are designed to give as comprehensive picture as possible of aptitude for the programme. Such a test measures competences and skills that are of direct importance for academic performance. Candidates who are able to distinguish between the main issue and side issues, who can work independently and acquire research skills, will score well in the combination test. As preparing for the test requires a great deal of effort, it is also a good measure of motivation.

The test takes place between 15 January (end date for enrolment) and 15 March and is organised as follows:

- a) There are at least two test dates which the candidate can choose from.
- b) At least one week before the chosen test date, all of the study material, including any lectures, will be made available to the candidates online.
- c) The candidates study the material (including any lectures) during the independent study period preceding the test. The indicative time required for this study is 20 to 25 hours.
- d) The candidates take the combination test on the appointed day.

Candidates outside the Netherlands who have enrolled correctly and in good time and who fulfil or are expected to fulfil the educational entry requirements will be given the opportunity to take the test online with an invigilator. This also applies to candidates in the Netherlands who are unable to take the test on location.

Candidates from the Netherlands Antilles (ABC and BES islands)

Candidates from the Caribbean Netherlands will be assessed using the same methods as candidates in the Netherlands and go through the same enrolment procedure. They will also be given the opportunity to take the test online with an invigilator.

Ranking

A combination of the GPA and the result of the test determines the candidate's position on the ranking list. Both aspects of the selection are equally weighted (50/50). The candidates with the highest GPA and the highest test results are awarded the lowest number (1, 2, 3, etc.) in the ranking list. Candidates who (1) have enrolled via Studielink on or before 15 January 2019, (2) have submitted a complete personal file on or before 31 January 2019 (containing all the information available at that moment needed to determine the GPA including the level of mathematics and English – selection criterion 1) and (3) have taken the test, will be awarded a ranking number. Candidates who have enrolled in time, but who have not submitted a personal file or participated in the test day, will not receive a ranking number and will not be selected.

Time schedule

| | |
|----------------------------------|---|
| 4 October 2018 – 15 January 2019 | Enrol via Studielink |
| 15 January 2019 | Deadline for enrolment |
| 31 January 2019 | Deadline for submitting complete personal file* |
| 15 January – 15 March 2019 | Test and selection process |
| 15 April – 1 August 2019 | Placement process |

*A complete personal file contains all the information available at that moment needed to determine the GPA including the level of mathematics and English (selection criterion 1).

More information for interested parties and candidates is available on the website.

**Appendix 10, UvA Flexible-Learning Pilot Regulations 2019-2020
adopted by decision of 1 November 2018, decision no. 2018-072342**

UVA FLEXIBLE-LEARNING PILOT REGULATIONS 2019-2020

Disclaimer: This translation is provided for information purposes only. In the event of a difference of interpretation, the original Dutch version of this document is binding.

Pursuant to the flexible-learning pilot in accordance with chapter 2a of the Royal Decree on experiments in flexible higher education, for which permission to participate, as referred to in article 17k of the Decree, was granted on 24 March.

Article 1

Definitions

- a. *the Decree:* the Royal Decree on experiments in flexible higher education;
- b. *the flexible-learning pilot:* the pilot as referred to in chapter 2a of the Decree;
- c. *flexible-learning student:* a student who, at his/her request, is designated by the Head of CSA to participate in the flexible-learning pilot;
- d. *repeat flexible-learning student:* a student who in the previous academic year participated in the flexible-learning pilot and the following academic year participates in the pilot again;
- e. *participating degree programme:* a degree programme for which it has been determined in the relevant education and examination regulations that a maximum number of students may participate in the flexible-learning pilot;
- f. *the Regulations:* the regulations governing the UvA flexible-learning pilot;
- g. *UvA Enrolment Provisions:* the decision, as referred to in WHW Article 7.33, establishing the procedural rules on the basis of which students are enrolled at the UvA for a particular academic year.
- h. *the Act:* the Dutch Higher Education and Research Act (“Wet op het hoger onderwijs en wetenschappelijk onderzoek”, WHW).

Article 2

Duration of the pilot

The pilot will commence on 1 September 2017 and run to 31 August 2023.

Article 3

Applicability of Enrolment Provisions

The Enrolment Provisions, of which these regulations are a part, only apply insofar as they do not derogate from these regulations.

Article 4

Participation in the pilot for the first time

1. A person who registers for a course, which appears for this academic year on the list appended to these regulations under A, may request the Head of CSA to designate him/her as a participant in the flexible-learning pilot.
2. The Head of CSA will designate the relevant student as a flexible-learning student if:
 - a. the request is submitted on time via Studielink¹, and
 - b. the student, in the event he/she is not designated as a flexible-learning student, is liable for the entire statutory tuition fee as referred to in Section 7.45a of the Act; and
 - c. the maximum number of new flexible-learning students has not yet been reached for the relevant degree programme and the relevant academic year at the UvA.

¹ For the 2019-2020 academic year, this is from 1 to 31 May 2019 for Bachelor's degree programmes and from 1 October 2018 for Master's degree programmes, or from however later Studielink opens for registrations for the degree programme in question by the candidate concerned, until 31 May 2019.

3. The order of participation, in relation to requests which have been submitted, in accordance with the second paragraph, via Studielink on the **first day** on which registration as a flexible-learning student is possible, will be determined by means of a draw, and subsequently will be based on registration order until the maximum number of new flexible-learning students has been reached.
4. The designation as a flexible-learning student will lapse if the student, in relation to a Bachelor's degree programme, has not, prior to 1 September of the year of registration, had a positive recommendation for this degree programme regarding his/her educational future, within the meaning of Section 7.8b, first paragraph, of the Act, or has not passed his/her propaedeutic exam.

Article 5

Maximum number of new flexible-learning students

1. The maximum number of flexible-learning students to be designated for all degree programmes is 400 for the 2019-2020 academic year and 1,000 for the 2018-2019 academic year.
2. The maximum number of flexible-learning students to be designated per degree programme is listed on the appended list A for the 2019-2020 academic year.
3. The maximum number of flexible-learning students for the other academic years, for all degree programmes in total and per degree programme, will be determined in separate decisions.

Article 6

Repeat flexible-learning student

1. A person who has participated in the pilot may, as long as the pilot is running, submit a request to participate in the pilot once again in the following academic year².
2. The request to be designated a repeat flexible-learning student will be granted, if:
 - a. the student has registered on time via Studielink³; and
 - b. the registration as a flexible-learning student or repeat flexible-learning student has been uninterrupted; and
 - c. the registration as a flexible-learning student or repeat flexible-learning student has not been terminated.

Article 7

Tuition fees

1. The flexible-learning student or repeat flexible-learning student owes increased statutory tuition fees per ECTS credit equivalent to the statutory tuition fee rate for the relevant academic year per ECTS, multiplied by 15 percent, whereby a minimum of 6 ECTS applies. The flexible-learning rate for the 2019-2020 academic year is €39.92 per ECTS credit, with a minimum of €239.55.
2. The number of ECTS, for which the flexible-learning student has registered⁴ prior to the semester, is decisive in determining the number of ECTS for which the flexible-learning student owes tuition fees. The flexible-learning student or repeat flexible-learning student is liable for at least the flexible-learning rate for 6 ECTS irrespective of the registration.
3. Unless stipulated in the UvA Enrolment Provisions, the flexible-learning student has no claim to a refund of the tuition fees upon termination of enrolment.
4. If it becomes evident that the flexible-learning student or repeat flexible-learning student has taken more ECTS or other course units, and/or relevant tests or examinations, than those for

² Flexible learning is available for the Bachelor's degree programme in Economics and Business up to and including the 2020-2021 academic year, as this is to be split up into two degree programmes.

³ The Central Student Administration will inform the repeat flexible-learning student of the registration period in good time.

⁴ Course units for which the flexible-learning student or repeat flexible-learning student registered and has de-registered prior to the commencement of the relevant semester, will not be charged, with the exception of the minimum 6 ECTS.

which the flexible-learning student has registered, an additional assessment of the flexible-learning rate per ECTS will follow.

Article 8

Rights and obligations of the flexible-learning student or repeat flexible-learning student

1. Insofar as these regulations are not derogated from, the same rights and obligations apply to flexible-learning students or repeat flexible-learning students as to full-time students on the same degree programme.
2. The flexible-learning student or repeat flexible-learning student is obliged to participate in the evaluation of the pilot.

Article 9

Termination of flexible learning

1. Participation in the flexible-learning pilot will be terminated by the Head of CSA, per 1 February of the relevant academic year, if the student submits to the Head of CSA a written request thereto by no later than 31 January of the relevant academic year.
2. Participation in the flexible-learning pilot will end if the flexible-learning student or repeat flexible-learning student does not register as a flexible-learning student or repeat flexible-learning student the following academic year.
3. Participation in the flexible-learning pilot may be terminated by the Head of CSA if the student does not participate in the mandatory evaluation of the pilot.
4. Participation in the flexible-learning pilot will in any event end on 31 August 2023⁵.

Adoption and implementation

These regulations were adopted by the Executive Board in decision no. 2018-072342 and take effect as of 1 October 2018.

⁵ Flexible learning is available for the Bachelor's degree programme in Economics and Business up to and including the 2020-2021 academic year, as this is to be split up into two degree programmes.

Appendix 11, Regulations governing Intake for the Postpropaedeutic Phase adopted in a decision taken on 23 October 2018, with decision no. 2018-070395

UVA REGULATIONS GOVERNING INTAKE FOR THE POSTPROPAEDEUTIC PHASE for fixed-quota degree programmes within the meaning of Sections 7.53 and 7.56 of the Higher Education and Research Act (WHW).

Article 1

Because of insufficient teaching capacity for the degree programmes to which a fixed quota within the meaning of Section 7.53 or Section 7.56 of the WHW applies, enrolment for the postpropaedeutic phase of the programme in question will be refused to anyone who has not already been enrolled as a student at the University of Amsterdam.

Article 2

Should there be sufficient teaching capacity in the relevant degree programme for the relevant academic year, in individual cases, the dean of the faculty of which the degree programme is a part may, on behalf of the Executive Board, grant exemption from this refusal:

- a. if there are exceptional, very compelling personal circumstances that prevent a student from continuing the degree programme at their own institution, or
- b. on the basis of further regulations governing intake for the postpropaedeutic phase for the relevant degree programme drawn up by the dean of the faculty of which the degree programme is a part and approved by the Executive Board.

Article 3

A request for admission in accordance with Article 2 must be submitted via Studielink. The Student Counsellors department will issue advice concerning the presence of exceptional, very compelling personal circumstances.

Article 4

The dean of the faculty of which the degree programme is a part will decide on behalf of the Executive Board.

Article 5

An admission decision will apply exclusively for the academic year for which it is issued.

Article 6

These Regulations were adopted by the Executive Board in a decision on 23 October 2018 with decision no. 2018-070395 and enter into effect on 1 October 2018.

EXPLANATORY NOTES ON REGULATIONS GOVERNING INTAKE FOR THE POSTPROPAEDEUTIC PHASE

for the fixed-quota degree programmes within the meaning of Sections 7.53 and 7.56 of the WHW.

For the degree programmes to which a fixed quota applies within the meaning of Section 7.53 or 7.56 of the WHW, initial enrolment as a student for the propaedeutic phase of these programmes is possible only if the student concerned holds a confirmation of admission issued via Studielink. No confirmation of admission is required for enrolment for the postpropaedeutic phase. This means that, in the absence of further provisions, it could be possible to circumvent the enrolment restriction. If the UvA were to permit unlimited student enrolment, capacity problems could still occur.

Section 7.54 of the Higher Education and Research Act (WHW) makes it possible to refuse enrolment for the postpropaedeutic phase to those who have not already been enrolled at the UvA for the programme concerned. To this end, the UvA adopted the Regulations governing Intake for the Postpropaedeutic Phase of Psychology, Dentistry and Medicine in 2007.

Not all Bachelor's programmes have a propaedeutic year. In the WHW, 'postpropaedeutic phase' is also understood to mean the phase in a Bachelor's programme following the first period in the programme with a workload of 60 credits.

If teaching capacity in the relevant academic year permits it, it is possible to depart from the refusal of admission in certain cases. For this, exceptional, very compelling personal circumstances must apply. Examples of such circumstances might include: a medical and/or psychological diagnosis, social and/or economic conditions, refugee status, family reunification and residence with a partner in the Netherlands. In addition, it is also possible to depart from the refusal of admission on the basis of further regulations governing intake for the postpropaedeutic phase for the relevant degree programme drawn up by the dean of the faculty of which the degree programme is a part and approved by the Executive Board.
